

ABNER DAVIS WELL HITS OIL

Tozoh, Texas, July 15.—A 15-foot sand was struck in the Abner Davis well on section 25, school block 48, Reeves county, Thursday afternoon at 5:15 feet. The oil is said to be identical with the "tube" found in the older wells in the shallow field of the Tozoh basin. The yield is estimated at 100 barrels a day.

Did You Know?
That an oil colored enlargement from your nose is more true to life and of more interest to you and your friends than an oil painting that you pay from \$10 to \$100 for, or more? Ask us for our low prices on these enlargements.

Our Kodak finishing is done by men of long experience and under our personal supervision. We also give special attention to mail orders. Write for prices and don't forget to ask us for our free enlargement plan. The Photo Shop.

FRECKLES

New Is the Time to Get Rid of These Ugly Spots

There's no longer the slightest need of feeling ashamed of your freckles as Othine—double strength—is guaranteed to remove these unsightly spots. Simply get an ounce of Othine—double strength—from any drugstore and apply a little of it at night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than an ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength Othine as this is sold under guarantee of money back if it fails to remove freckles.—Adv.

BIG CLEARANCE SALE

For Saturday and Monday
Bang! Slam! Zowie! Down go prices on our summer merchandise for men. Get in the band wagon, men, and let the Palace save you about 75% on your duds.

Lost

Two years ago my daughter disappeared from my home in Bombay. I have traced her by means of my crystal globe to New York and from there to Kansas City. She is living under the name of Gina Ashley or Ashling, and I believe she is now in El Paso. She is twenty years old, light complexion, dark black hair, and could be easily picked out of a crowd by her marvelous eyes. Please help me find her. Send any information to

YOGI Rabind Singh
Del Norte Hotel.

4 NEW FIELDS IN OKLAHOMA

Tulsa, Okla., July 15.—The Prairie Oil and Gas company has opened a new field in Creek county by the completion of its No. 1 in the south-east quarter of section 17-15-7. The well is flowing 25,000,000 feet of gas daily from a formation picked up around 2100 feet. The drill is only two feet in the sand. The site is two miles southwest of Depue.

Northwest of Coweta, in Waggoner county, a small field has been found by the completion of a 75-barrel well in section 6-16-6 at a depth of 790 feet. This well is two miles from production.

The Misener and Black wildcat development in the Beggs Slick district has resulted in the discovery of a third new pool during the past week in Oklahoma. This operation is making 1,500,000 feet of gas from 2112 feet and is two miles from nearest production.

The fourth new pool to be discovered is that operated by the L. E. Jackson wildcat well in section 6-16-10, Kellyville district, Creek county. It is making 1,000 barrels of oil from the Taneha sand encountered at 2340 feet and is situated more than a mile from nearest production.

4000 BBL. WELL LARGEST IN STEPHENS COUNTY IN WEEKS
Rockledge, Texas, July 15.—The Lakeview No. 1 of the Virginia Oil company is making 4000 barrels of oil daily with production increasing. This is the largest completion in the Stephens county field in several weeks. The well is located in the Rockledge city limits, began running wild the middle of last week. It makes a loose ripple of the road from its mooring. The well came in natural from 2156 feet.

WELL 7 MILES FROM RANGER PROVES UP NEW TERRITORY
Ranger, Texas, July 15.—A 1000-barrel well has been brought in by the Markham-Tidal Oil company in its No. 1 Mrs. A. Z. Vowell seven miles northwest of town. Besides the oil production the well is making approximately 25,000,000 feet of gas.

This well came in with such force that the tools were blown from the hole. The well is situated two miles from the famous Pleasant Grove district and a mile west of the nearest good producer. It proves up considerable new territory besides discovering new producing formation.

BETHLEHEM-TEXAS WELL DRILLING IS RESUMED
Fort Stockton, Tex., July 15.—While the shooting of the Bethlehem-Texas well, on the Corder ranch, 40 miles to the southeast of Fort Stockton, the first well in the county shot with nitro-glycerine, did not bring in an oil well, it did develop a much more attractive sand than that which had hitherto been drilled through, and the drilling has been resumed with renewed vigor.

FARM OUTLOOK IS SUPERFINE

Agricultural and livestock conditions have never seemed more promising in this part of the southwest, according to John Fleming, of the Motor Car Sales company, who recently returned from a five-weeks trip through West Texas and southern New Mexico.

"Everybody is looking for bumper crops in the fine grain country around Amarillo," Mr. Fleming said, "and I was greeted with similarly enthusiastic reports of crop and range conditions at Clovis, Roswell, Pecos, Toyah, Sweetwater, and San Angelo. In fact the only approach to anxiety that I encountered on my trip was concerning a possible shortage of freight cars, such as delayed the movement of crops last year."

Commenting on the possible shortage of cars at crop-moving time, Mr. Fleming pointed out that this was only one of many reasons why it would be a wise thing for prospective purchasers of motor cars to place their orders at once.

"The question of automobile delivery may become uncertain later in the year," Mr. Fleming said, "and also, according to a survey made recently by the Jordan Motor Car company of Cleveland, there is a definite tendency toward higher prices. Cars of distinction and reliability that can be operated economically, continue to be in demand far beyond the ability of manufacturers to produce them and the outlook for business as a whole is most optimistic."

The situation which existed last spring may again develop this fall, and those who wait, hoping for a price drop, will be unable to get delivery on their cars. This applies particularly to closed cars as well as roadsters, which are far behind in production. Dealers everywhere who are contemplating in the cars of their customers are recommending immediate purchase of a car in order to avoid delay and disappointment in the early fall."

Besides the oil production the well is making approximately 25,000,000 feet of gas. This well came in with such force that the tools were blown from the hole. The well is situated two miles from the famous Pleasant Grove district and a mile west of the nearest good producer. It proves up considerable new territory besides discovering new producing formation.

Get Good year Value In Tires for Small Cars

Don't be misled by very cheaply priced tires, for tire economy is not a matter of what tires cost originally but of what tire service costs in the end.

True Goodyear mileage and economy are built into Goodyear Tires, of the 30 x 3-, 30 x 3½- and 31 x 4-inch sizes, in the world's largest tire factory devoted to these sizes.

If you own a Ford, Chevrolet, Dort, Maxwell or other car taking one of these sizes, you can equip it with Goodyear Tires at your nearest Service Station.

Go there for the exceptional value in these tires made possible by Goodyear's resources, experience, and demonstrated expertness in tire manufacture.

30 x 3½ Goodyear Double-Cure Fabric, All-Weather Tread \$2350
30 x 3½ Goodyear Single-Cure Fabric, Anti-Skid Tread \$2150

Goodyear Heavy Tourist Tubes cost no more than the price you are asked to pay for tubes of less merit—why risk costly casings when such sure protection is available? \$450
30 x 3½ size in waterproof bag

POLICE MYSTIFIED BY \$16,000 GEM THEFT

Denver, Colo., July 15.—Police are without clues today to the theft of diamond rings appraised at \$16,000 from Mrs. Eugene P. Shove, a guest of the exclusive Denver club, yesterday.

One was a seven and one-half carat stone. A reward of \$2000 has been offered. A five carat pigeon blood ruby in another ring was mounted in diamonds and platinum. One ring was valued at \$1,000. Mrs. Shove is a Colorado Springs society woman.

RAILWAY CLERKS HOLD CONFERENCE ON WAGES
Chicago, Ill., July 15.—E. H. Fitzgerald, president of the Brotherhood of Railway Clerks, arrived here today for a conference Monday with 200 general chairmen of the clerks' brotherhood. The clerks number approximately 275,000. They demand an increase of at least 20 cents an hour retroactive to January 1.

NORTH WESTERN EMPLOYEES ON STRIKE IN CHICAGO
Culbush, Me., July 15.—The North Western's shop and yards employees have been on strike for several days, asking 40 percent increase in salaries. The local manager informed the strikers that the company

could not grant the raise asked because the North Western lines have suffered the loss of thousands of dollars in the last year. As the train crews were not on strike, the service along the line is not interrupted until Tuesday.

Sure Way To Get Rid Of Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This dissolves it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and itching of the scalp will stop instantly, and your hair will be glossy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.—Adv.

MORTGAGE TRUST STOCK OF \$500,000 IS OVERSUBSCRIBED

The new stock issue of the Mortgage Trust company of El Paso has been oversubscribed. The share capital was increased from \$500,000 to \$1,000,000, and the new stock sold at \$125 a share.

The Mortgage Trust company has in recent years been bringing in a good deal of outside money to loan here on real estate, chiefly for new building purposes. Even during the war the company brought in \$750,000 to \$1,000,000 a year of outside capital for investment in El Paso.

The company intends now to broaden its scope, and go into investments, banking, underwriting securities, handling real estate, mortgage loans, etc. The company absorbs Marr Brothers Investment company. Among the new stockholders are J. G. McGrady, Gus Momen, F. M. Murchison, Carl Leonard, Fred A. Elliott, Joshua S. Reynolds, James G. McNary, Dan White, W. M. Banner, U. S. Stewart, Dr. J. W. Laws, W. L. Twigg, Julius Krakauer and many others all El Pasoans.

The officers are James L. Marr, president; W. E. Marr, J. G. McGrady, Fred A. Elliott, vice presidents; W. L. Piper, secretary; Hallett Reynolds, treasurer. The officers with Gus
